Catering

During your photoshoot, it is possible to open an account at our hotel bar. You can order drinks here and on request, we can discuss providing lunch and a snack during the break.

We would like to point out the following conditions:

- Always take our hotel guests into consideration. Do not send them away or take pictures without asking
- Always take the space into account as it is, which means do not move furniture or hang paintings. This applies to all rooms (lobby, stairwell and restaurant Bonboon).
- Breakfast is served in Restaurant Bonboon until 10:30. It is therefore not possible to take pictures in the restaurant before that time (between 07:30 and 10:30) or during this time.
